

Operation

Labeling people / faces

Because PictureGuide already groups all faces together, you no longer have to go to each image individually to assign a name to the faces. Therefore, label the found face groups directly as follows:

1. **PictureGuide > Label > People > (New Suggestions)**

Operation

Operation

2. **Pelect a new person or an existing person**
3. Choose a person you know from the faces
4. More matching faces in the suggestions by **clicking** on Confirm or **All correct**
5. Enter name (or click **New person**) or select person
6. **Save / Map**
