

Operation

Assign faces to another person

If faces are assigned to the wrong person, this can be corrected quickly.
You can also merge people if a person has been created twice.
In the example, some faces of Sofia Sardes are assigned to Sabrina Müller.

- PictureGuide > **Labeling** > **People**

Operation

Operation

1. Select person that contains fake faces
2. **Mark** all the wrong faces
3. Select > **assign** a new person via the drop-down list
4. Alternative: Drag **and drop** faces onto the new person in the left menu
5. Alternative: Assign or delete faces to another person using the **context menu**
